New Family Constellation Training

Starting springtime 2010 we are offering a second training in Family Constellation in Montreal. Family Constellation work, as developed by reknown psychotherapist Bert Hellinger, has grown rapidly in Europe and is now gaining international attention.

The training will have **six modules of three days each, three modules a year.**

During the training every four to six weeks meetings are planned so trainees can explore the work together under guidance.

A certificate of completion will be issued at the end of the course.
